

# Intermediate Stockmanship Clinic

with  
Whit Hibbard and Dawn Hnatow

Whit Hibbard is a fourth generation Montana rancher and editor of *Stockmanship Journal*.

Dawn Hnatow is Bud Williams' senior student and manages Cattle Up Ranch in Texas.

Low-stress livestock handling has been shown to improve performance (i.e., weight gain, conception rate, milk yield, immune function and carcass quality), as well as efficiency, safety, animal welfare, and quality of life, all with *no additional inputs!*

## **Intermediate clinic**

The intermediate clinic will focus on refinement and skill building by spending more time on fewer topics. After a brief review of fundamentals, this indoor, power point-based clinic will focus on deepening and expanding peoples' understanding of the principles, techniques, and practical applications of low-stress livestock handling.

**A prerequisite is having attended an introductory low-stress livestock handling or stockmanship clinic.**

**Dates:** March 12-13, 2019

**Location:** K Barr C Ranch, Ponca City, Oklahoma

**Schedule:** 8:30am – 5:30pm

**Accommodations:** TBA (Info Sheet)

**Meals:** Lunches provided

**Cost:** \$550 per person

**Registration:** A deposit of \$100 is required by February 15, 2020.  
Please send your check, made payable to Cattle Up Stockmanship, to,  
P.O. Box 1477, Sulphur Springs, TX 75483
